Any file in any format can be uploaded and downloaded for free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Files canbe downloaded from any computer from our high speed servers. You decide who you want to share your files with. You don't need any special softwareinstalled to be able to download your files. Unfortunately, we can't make that part free. The cost of that data transfer is covered by your internet service or thedata plan on your phone. filehosting provides an easy possibility for you to send large files to your friends. It is also allowed to link to the download page fromwebsites and communities. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You can give this download link to yourfriends by mail or instant messenger. Our service is completely free for everyone. Keep your files private, or send your download links only to friends orfamily. Just upload the file you want to share with your friends and we send you a download link to your file. Alternatively you can choose to share yourdownload links on blogs, forums and social networking sites. File is free to use with no gotchas and no hidden fees. So try our free and simple filehostingservice now. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file (movies, music,documents, images, zip files and more). Using file, you can circumvent those limits without paying to upgrade your team chat service. No account or credit cardis required to get started. We have no file size limit. Simply upload your file and share the link. Files transferred the old-fashioned way tend to pile up and b
