The cost of that data transfer is covered by your internet service or the data plan on your phone. Unfortunately, we can't make that part free. It is also allowed to link to the download page from websites and communities. filehosting provides an easy possibility for you to send large files to your friends. Files can be downloaded from any computer from our high speed servers. There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends or family. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees.
